

ABOUT US //

The saying goes every sincere dream comes true!

Shri Tripura Science PU College powered by Gurukulam Academy is the sincere dream of five faculty members who has more than decade experience in the stream of NEET, JEE and KCET other exams. And helped many students to secure top ranks and pave a path for the bright future. We hope to nurture dream of many students.

VISION

- To establish and implement education system in which
- Learning is happy
- Scoring become easy
- Growth becomes natural
- Success becomes common
- Dreams becomes reality

MISSION

As a team of dedicated teachers we are committed to instill confidence in the mind of students. Habit of questioning in their learning process to ensure they excel in competitive exams and also ensure to build a strong character to lead their life.

DIRECTORS MESSAGE //

It is pleasure that I welcome you to SHRI TRIPURA SCIENCE PU COLLEGE. We are dedicated to provide a nurturing and dynamic learning environment that fosters academic excellence, character development and personal growth. We believe that education is the corner stone of a bright future. Our committed faculty members strive to ignite curiosity, inspire creativity and instill a love for learning in each student. Through innovative teaching and methods and a comprehensive curriculum we aim to equip our students with skills and knowledge necessary to excel in national and state level competitive exams like JEE, NEET and KCET. Let us work hand in hand to create a future that is bright, promising and filled with endless possibilities. Wishing you all a successful and Fulfilling Academic year.

Warm Regards
(M L PATIL)

Director & Maths Professor
SHRI TRIPURA SCIENCE
PU COLLEGE

Dear Parent, As biology faculty and NEET trainer for last 15 years, want to address few words about the national perspective about NEET. The national eligibility cum entrance test (NEET) is a highly significant examination in INDIA. It serves as the sole entrance for undergraduate medical and dental programs in the country. NEET was introduced to standardize the admission process and ensure a fair and transparent selection of candidates for medical colleges. With the implementation of NEET, it creates a level playing field for all aspiring medical students, regardless of their background or state of residence. It helps to maintain a high standard of education and medical practice. Overall NEET plays crucial role in shaping the future of medical education and health care in INDIA. To bring maximum selection in NEET we are offering FOCUS BATCH under the supervision of highly professional and result oriented teachers.

With Regards

Prof. RAMANUJAM
Director and Department
of Biology.
